

WHEAT VARIETY 26R15

Abstract

A wheat variety designated 26R15, the plants and seeds of wheat variety
5 26R15, methods for producing a wheat plant produced by crossing the variety 26R15
with another wheat plant, and hybrid wheat seeds and plants produced by crossing
the variety 26R15 with another wheat line or plant, and the creation of variants by
mutagenesis or transformation of variety 26R15. This invention also relates to
methods for producing other wheat varieties or breeding lines derived from wheat
10 variety 26R15 and to wheat varieties or breeding lines produced by those methods.
